

Omnissa Manifesto

This is your work. And, simply put, it needs to *work*. Needs to work like *you* do, actually. But, like many simple truths, making it that easy isn't always so easy.

You need someone who can partner with you, think like you, and think beyond to the things you'll need in the future. And you need flexible, secure, reliable solutions—so work just *works*, without you having to sweat the details.

At Omnissa, we're single-mindedly focused on this goal—your goals, really. Work, your way. However and wherever you need it.

We call them organizations, so let's get them organized. A consistent, unified experience across every device and workspace. Smooth, streamlined, and seamless for both user and IT alike.

One experience that makes work work for everyone. Reliable. Consistent. Simple to use. All the apps, every capability, at any capacity, anywhere and everywhere. Global. Connected. Unstoppable. Truly personalized to get the job done.

One experience that always works for IT. Your exact requirements for your exact business—any scale, any level, any goal, and everything you need to keep growing and evolving. Awareness. Control. Customization. Our solutions know, they see, they solve problems, they plan for what's next. It's creating the workspace your business needs, with the reliability and security *all* work needs. No question about it.

And sure, yes, it's the tech – always the tech. But ask around, and it's really the people who bring these solutions to life. Our experience, our know-how, our insight, our understanding, vision, and support. The curiosity and care to see who you really are and what you really need. The capacity to adapt and evolve to truly meet those needs. We're here to meet you where you are, and maybe you take you even a little further. We've seen it. We've done it. We do it. And we'll keep on doing it. Because we're the ones doing the progressive, pioneering, transformative work like no one else.

At Omnissa, we invent, we imagine. We look ahead, and we're excited what we see it. But all we do, we do for you. Thinking far, thinking wide, from the highest level to the smallest detail, to meet your needs your way. Your wildest dreams. Your greatest challenges. All the niggling little B.S. Throw us a curveball, however quirky or gnarly. We love to see it. We see your goals, make them our own, and get there together. Focused. Driven. Diligent. Undaunted. But our real passion—what really gets us going— is getting it done so it's off your plate and out of your head. So you don't have to have to stress about how or why or all the ins and outs (although we'll happily chat away for hours with you if you'd like).

At this point, this isn't a nice-to-have or a down-the-road on your roadmap. This is critical. Key. Urgent.

This is the way we work now.

Where you need to be today, and where you want to be tomorrow.
And free from all the other work that's been slowing you down.

Work that just works. Your way.

So let's get to it.
